

# Setting up of COVID Hospitals

Posted On: 23 SEP 2020 6:38PM by PIB Delhi

For appropriate management of COVID-19 cases, Government of India has advised State governments to setup a three-tier arrangement of health facilities exclusively for COVID. These are (i) COVID Care Center with isolation beds for mild or pre-symptomatic cases; (ii) Dedicated COVID Health Centre (DCHC) with oxygen supported isolation beds for moderate cases and (iii) Dedicated COVID Hospital (DCH) with ICU beds for severe cases. In addition, Defence Research and Development Organization (DRDO) has set up large field hospitals with capacities ranging from 1000 to 10,000 isolation beds in Delhi and Bihar (Patna and Muzaffarpur). State-wise details of COVID treatment facilities are given below:

State-wise details of COVID treatment facilities (as reported by States/UTs) as on 22<sup>nd</sup> September, 2020

States	No of Facility	Total Isolation beds (excluding ICU beds)	O2 Supported beds	ICU beds	No of Ventilators
Andaman & Nicobar	23	1173	165	24	20

Government of India is following a containment strategy for limiting the spread of COVID in the country. In order to facilitate the implementation of the same at ground level Ministry of Health & Family Welfare has issued containment plans for clusters and large outbreaks. These plans are flexible and can be adapted to any situation. A model micro-plan has also been made available to the States/UTs in this regard.

In collaboration with the States/UTs Government of India has deputed multi-disciplinary Central teams to assist State Health authorities in implementation of public health response to COVID.

Central multi-disciplinary teams have been deployed to 25 States/UTs. Details are given below:

These teams have worked together with State/District administration to further strengthen and refine containment operations, COVID-19 testing, management of hospital capacities etc.
